## About Us...

Max Engineering is a name to be reckoned with in market for offering wide range of excellent products which have huge and varied applications in various places. The firm started with its business operations in the year 2016 as a Partnership concern and is based at New Purulia Road, Mango, Jamshedpur Jharkhand. From the time of our inception we have done a commendable job in the field of Trading and Supplying of wide array of products which include various kinds of Process Measurement & Control Instruments. The products offered by us are well known for their hassle free performance at the place of their application. Vendors from whom the range is procured are very particular in making sure they are manufactured as per guidelines for the industry, which is a surest way of achieving dimensionally accurate products benefitting the clients. We make great efforts in making sure they manufacture the products with high grade material and components.

The firm has done praiseworthy work in a span of very short time as it receives huge guidance and Support from Mr.Sri H.C.Srivastava (Ex – Executive Director Works H.C.L ICC ),late Mr.Sri S.R Sibal (President Project at BMW Industries Ltd) . All of them possess great knowledge and enormous business experience through which we have achieved commendable success in every sphere. Owing to their immense support the team of professionals is always assured of help on which it can depend upon without doubt.

Success in any business organization is a result of meticulous planning and its excellent execution. We are apt in both the areas, as we are well poised to give solid shape to our varied ideas owing to well constructed infrastructure. It is segregated into varied departments which work in perfect cohesion and ensure success in every endeavour of ours. The varied units which make a perfect infrastructure include quality, sales and marketing, admin, warehousing and many more.
